

REDGUARD®

redguard.com

WE ARE SAFETY. WE ARE PEACE OF MIND. WE ARE REDGUARD.

RedGuard is the leading authority in blast resistance and a world leader in providing safe, customizable and scalable modular buildings.

Driven by a passion for product innovation, RedGuard prides itself on the development of turnkey solutions that raise the bar in both personalization and protection for customers across industries and around the globe.

The company's dedication to meet each of its customer's unique needs—from initial design to installation and beyond—combined with its unsurpassed standards for quality and overall safety makes it the go-to manufacturer in the industry.

REDGUARD

TESTED FOR LIFE

RESPONSE LEVEL

MADE SIMPLE.

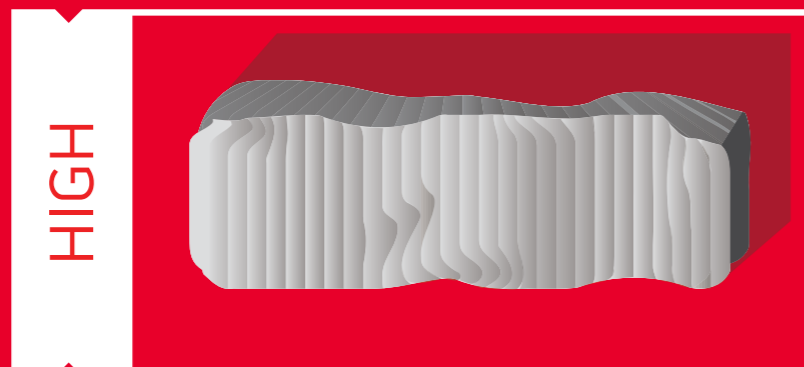

LOW RESPONSE: Localized component damage. Building can be used, however repairs are required to restore the integrity of structural envelope. Total cost of repairs is moderate.

.....

MEDIUM RESPONSE: Widespread component damage. Building should not be occupied until repaired. Total cost of repairs is significant.

.....

HIGH RESPONSE: Key components may have lost structural integrity and building collapse due to the environmental conditions (i.e. wind, snow, rain) may occur. Building should not be occupied. Total cost of repairs approaches replacement cost of building.

AT REDGUARD, WE'RE PROUD THAT ALL OF OUR BUILDINGS MEET THE CRITERIA FOR A LOW TO MEDIUM RESPONSE (DAMAGE) BASED ON USE.

TESTED FOR LIFE

BLAST PRESSURE ON THE BUILDINGS WAS 1.5 PSI

TEXAS CITY

15 workers were killed
170 more were injured

Site studies had been completed per API 752 for permanent structures.

The temporary wooden buildings, where most of the deaths and injuries occurred, were still less than 350 feet from the process.

The accident and the loss of life was preventable with proper siting and the use of blast resistant buildings.

The owner paid out over \$1.5B in settlements.

EVENT REALIZATION

TEXAS CITY REALIZATION

Slightly damaged shipping containers, near the destroyed temporary offices, led engineers to consider the design of blast resistant buildings based on similar design principles.

VERSABILT™
CHEMICAL

VersaBilt Chemical, from the leader in specialty modular buildings comes industry leading safe, code compliant, chemical storage buildings.

FOUR LEVELS OF PROTECTION:

Depending on the location and application of your chemical storage building RedGuard offers four levels of fire protection and endless accessories, like explosion-proof electrical accessories, ramps and shelving. All models are available with damage limiting construction if required.

Non-Combustible Steel | Rugged steel non-combustible construction for storage applications separated from other occupied structures.

2-Hour Unidirectional | 2-hour unidirectional fire rating to ensure internal fires are contained.

2-Hour Bidirectional | 2-hour bidirectional fire rating when storage needs to be near other occupied structures.

4-Hour Bidirectional | 4-hour bidirectional fire rating for the most critical applications

VERSABILT™

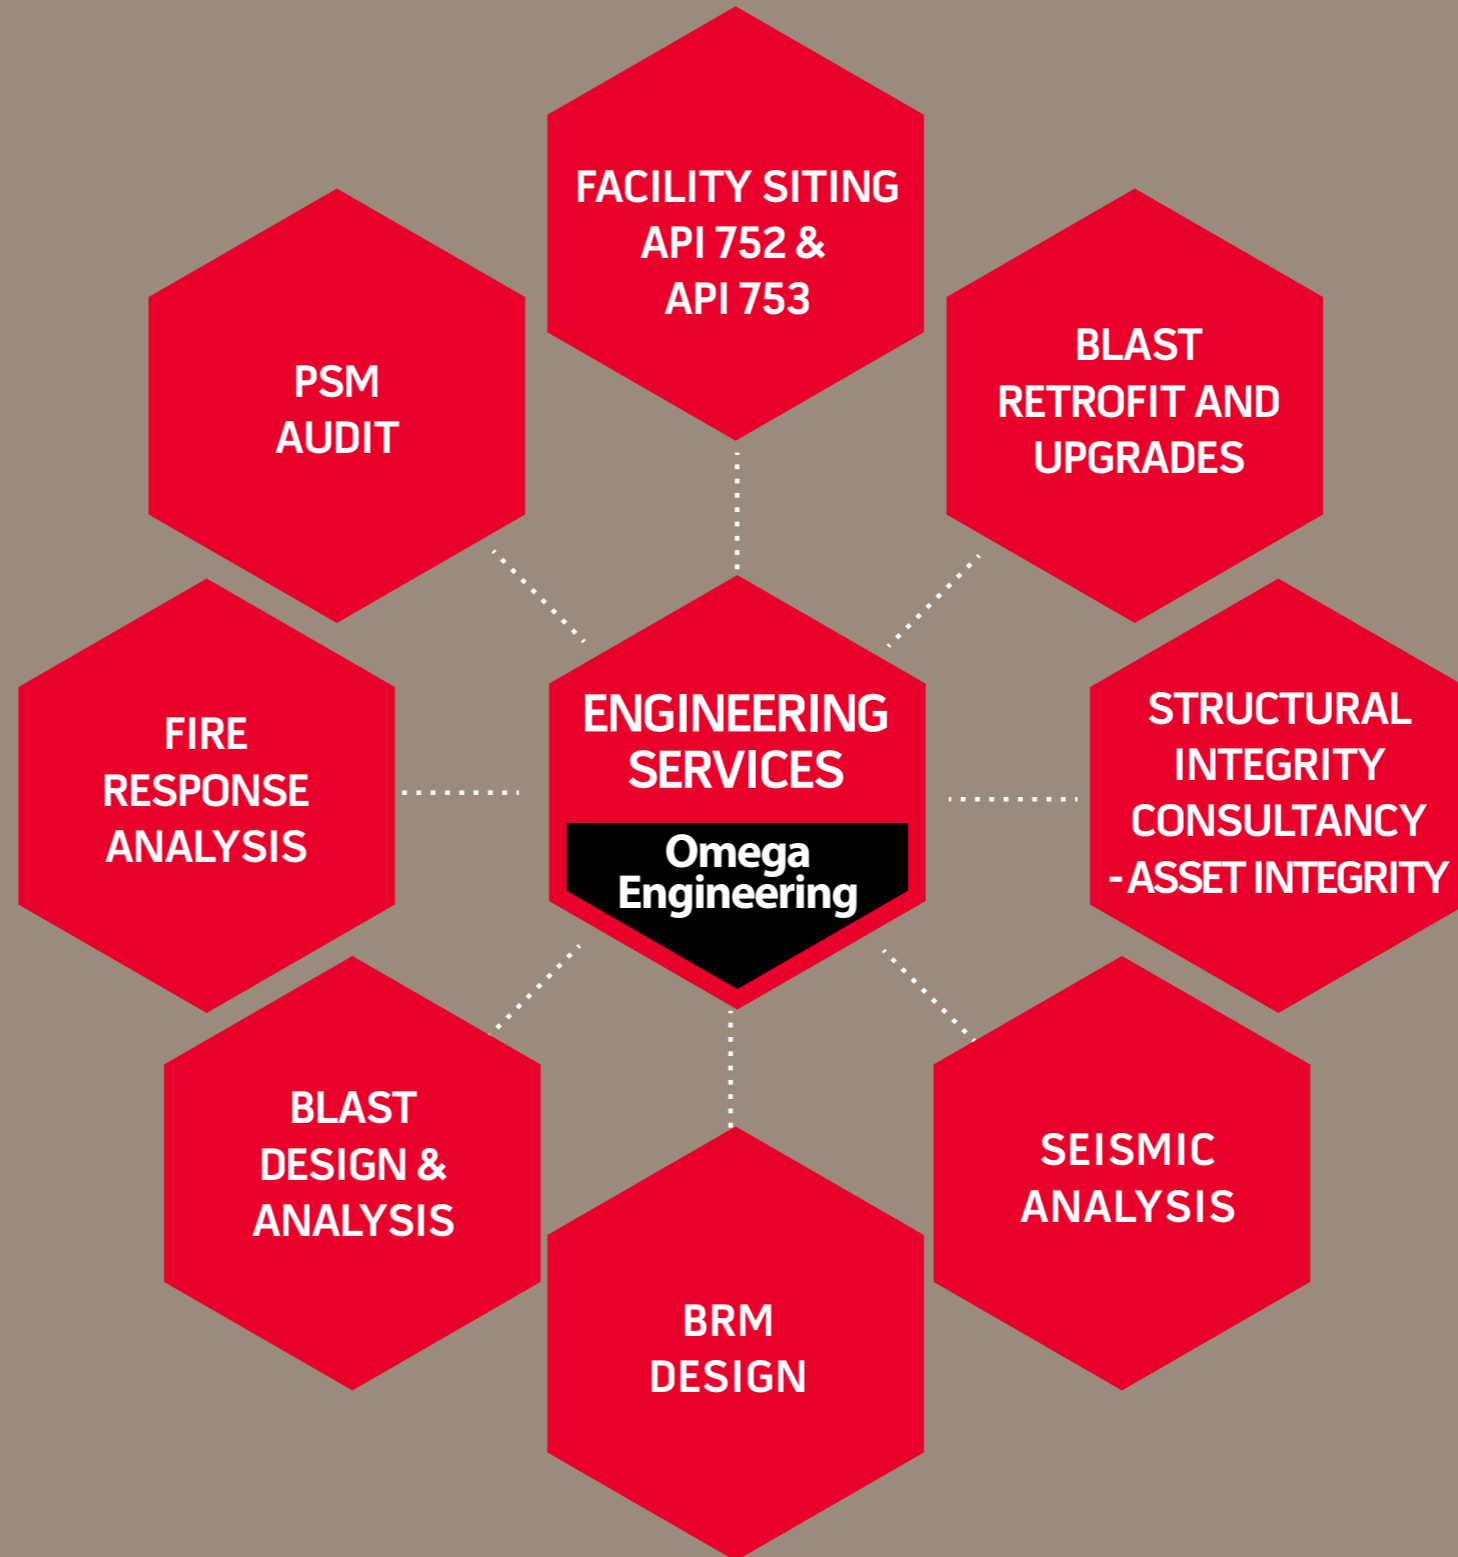

CHEMICAL

FLEX 42, 33 & 20 ACCOMMODATION MODULES

THESE MODULES CAN BE LEASED AS SINGLE UNITS OR AS A COMPLETE COMPLEX SOLUTION. INTERNAL FIT OUTS CAN BE DESIGNED TO MEET CLIENT REQUIREMENTS AND CAN ALSO INCLUDE BATHROOM FACILITIES. ALL OF OUR ACCOMMODATION MODULES MEET THE NECESSARY SAFETY REQUIREMENTS FOR OFFSHORE USE.

FEATURES AND BENEFITS

- SAFE AREA APPLICATION WITH OVERPRESSURE SYSTEM.
- DESIGNED FOR VERSATILE STACKABLE INSTALLATION.
- FIRE RATED GRP IN-SUITE WET ROOM.
- OPTIONAL ABS COMPLIANT LIGHTING FIXTURES WITH INDIVIDUAL BEDSIDE MOOD LIGHTING.
- CSC FRAME FOR MINIMIZED MOBILIZATION COSTS

TESTED FOR LIFE

G4 AND G4 GLOBAL SERIES

ALL UNITS ARE DESIGNED TO OPTIMIZE WORKSPACE EFFICIENCY, DESIGNED TO HOUSE SPECIALIZED EQUIPMENT AND RESOURCES IN A SAFE AND COMFORTABLE ENVIRONMENT. OUR OFFICE MODULES CAN BE OUTFITTED AND MODIFIED TO PERFORM ANY NUMBER OF FUNCTIONS TO SUIT YOUR SPECIFIC PROJECT REQUIREMENTS.

FEATURES AND BENEFITS

- DETECTION AND ALARM SYSTEM WITH COMBINED PRESSURIZATION, FIRE AND GAS DETECTION (CPFG).
- INCLUDES H₂S AND HC GAS DETECTION, SMOKE DETECTION, MANUAL CALL POINT, PRESSURIZATION FAN, LOSS OF PRESSURE AND FLOW DEVICES.
- 2 SPLIT TYPE AHU INLINE HVAC SYSTEMS TO CONDITION INCOMING PRESSURIZED AIR.
- A60 FIRE DAMPERS.
